About CCRIF SPC

CCRIF SPC, formerly the Caribbean Catastrophe Risk Insurance Facility, is a segregated portfolio company, owned, operated and registered in the Caribbean. It limits the financial impact of catastrophic hurricanes, earthquakes and excess rainfall events to Caribbean and Central American governments by quickly providing short-term liquidity when a parametric insurance policy is triggered. It is the world’s first regional fund utilizing parametric insurance, giving member governments the unique opportunity to purchase disaster risk insurance with lowest-possible pricing. CCRIF offers parametric insurance policies to Caribbean and Central American governments for tropical cyclones, earthquakes, excess rainfall and fisheries and also electric utilities parametric policies to electric utility companies in the Caribbean.

CCRIF was developed under the technical leadership of the World Bank and with a grant from the Government of Japan. It was capitalized through contributions to a Multi-Donor Trust Fund (MDTF) by the Government of Canada, the European Union, the World Bank, the governments of the UK and France, the Caribbean Development Bank and the governments of Ireland and Bermuda, as well as through membership fees paid by participating governments. In 2014, a second MDTF was established by the World Bank to support the development of CCRIF SPC’s new products for current and potential members and to facilitate the entry of Central American countries and additional Caribbean countries. The MDTF currently channels funds from various donors, including: Canada, through Global Affairs Canada; the United States, through the Department of the Treasury; the European Union, through the European Commission, and Germany, through the Federal Ministry for Economic Cooperation and Development and KfW. Additional financing has been provided by the Caribbean Development Bank, with resources provided by Mexico; the Government of Ireland; and the European Union through its Regional Resilience Building Facility managed by the Global Facility for Disaster Reduction and Recovery (GFDRR) and The World Bank.

CCRIF currently has 24 members:

19 Caribbean governments – Anguilla, Antigua & Barbuda, Barbados, Belize, Bermuda, British Virgin Islands, Cayman Islands, Dominica, Grenada, Haiti, Jamaica, Montserrat, St. Kitts & Nevis, Saint Lucia, Sint Maarten, St. Vincent & the Grenadines, The Bahamas, Trinidad & Tobago, and Turks & Caicos Islands

3 Central American governments – Guatemala, Nicaragua, and Panama

2 electric utilities – ANGLEC (Anguilla) and LUCELEC (Saint Lucia)
